

Imperial tire sizing

24x10-11 or **27x11R14**

Height

The total height of the tire in inches when mounted and inflated to the recommended air pressure.

Width

The total width of the tire in inches when mounted and inflated to the recommended air pressure.

Construction

An R means the tire has radial construction, while a dash indicates a bias-ply tire.

Diameter

The diameter of the wheel that the tire will be mounted on in inches.
