

KENDA KR102 Tourer

Designed for
your journey

KENDA KR102 Tourer

The KENDA KR102 Tourer is the first tire to be tailored to the specific needs of caravan tires. The unique design addresses the challenges associated with long-distance travel, extended stationary periods, and consistent loads.

Excellent wet grip ensures a safe drive in wet conditions and reduces the risk of aquaplaning

Key features

Tread wear indicators

Extra tread wear indicators are incorporated as part of the tread design for easy assessment.

User-friendly sidewall markings

Clear and easily identifiable sidewall markings provide important information for informed decisions about tire maintenance and usage.

Tailored tread

A tread design optimised for caravans ensures excellent performance on both wet and dry surfaces, providing the necessary stability and control during travel.

Strong kerbing strips

The inclusion of strong kerbing strips enhances sidewall protection. The tire withstands contact with curbs or other obstacles better.

Good wet grip capabilities

Designed to reduce the risk of aquaplaning for better control and safety.

M+S marking

The Mud and Snow (M+S) marking indicates improved performance in mud and snow, making it suitable for a variety of weather conditions.

UV protection compound

The inclusion of a UV protection compound helps prevent ozone cracks and loss of elasticity. This is particularly important, since caravans are often stored outdoors for extended periods.

Improved inner liner

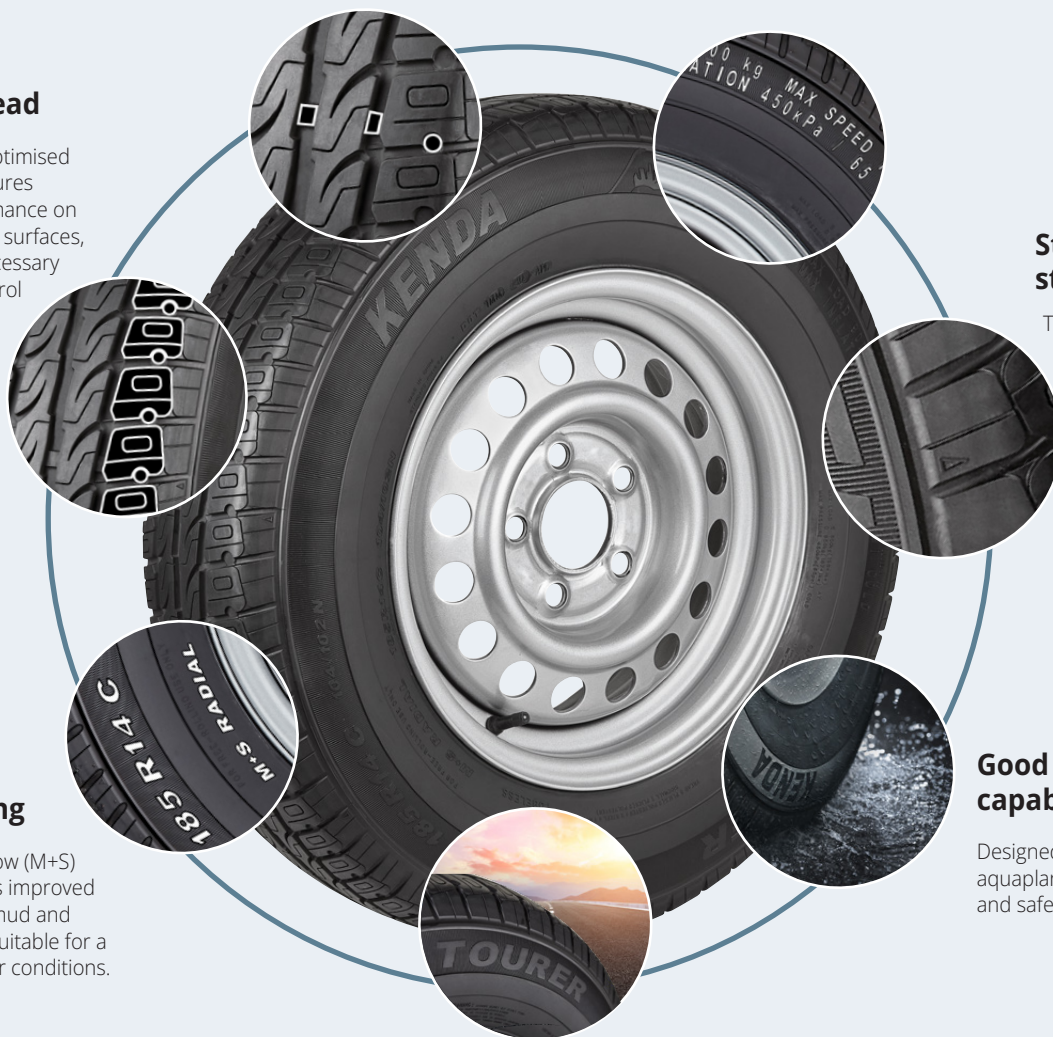

An enhanced inner liner reduces air loss. Maintaining proper tire pressure is crucial for safety, fuel efficiency and overall performance.

Free rolling design

A free rolling tire is lighter, runs cooler, wears slower and reduces fuel consumption.

E-marked

The tire complies with all required European legislation.

About KENDA

KENDA was founded in Taiwan in 1962 and has since grown to become one of the world's leading tire manufacturers operating across Asia, the US and Europe. Powered by a passion for mobility, we design and manufacture tires for your journey. We continuously work to ensure progression and to keep the world moving on tires and wheels that are fit for life. With more than 14.000 employees, 8 tire factories, 6 wheel factories, 4 technical centres and a global network of operation and distribution sites, we are proud to be a reliable partner for our customers.
