KENDA Europe Specialty

Designed for
your journey

Keeping Europe moving

The aftermarket depends on timing.

The right products, in the right place, at the right time.

KENDA supports the aftermarket with a broad tire and wheel range across Trailer, Caravan, Industrial, Utility & Groundcare, and Light Transportation.

This catalogue presents a selected overview of hero products within each category. Explore our full range and detailed specifications online at specialty.kendaeurope.com.

Why KENDA?

As a tire and wheel manufacturer with over 60 years of experience, we offer one of the industry's broadest product ranges.

But range alone doesn't keep your business moving.

KENDA is a tire and wheel solutions partner that supports you beyond the products:

> **Supply that fits how you work**

Order what you need, when you need it - whether that's full loads or smaller volumes.

> **Delivery you can plan around**

Key products are available locally for fast dispatch. The rest arrives within clear, agreed timeframes.

> **Support that speaks your language**

When something needs sorting, you talk to people who understand both the product and the application.

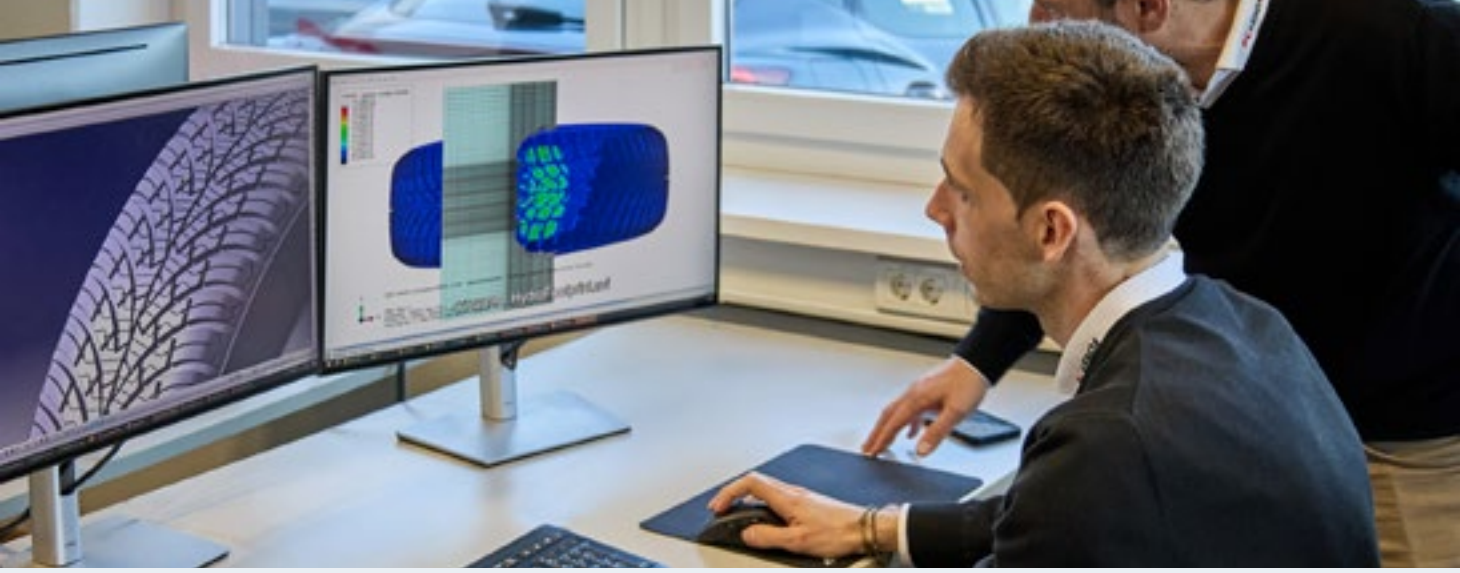

> **Knowledge from the source**

We design and manufacture our products ourselves. That makes decisions quicker and communication simpler.

Industrial

KENDA Industrial tires deliver dependable day-to-day performance for **compact construction** machines and **forklift trucks**.

Our industrial range combines strong carcass constructions and durable compounds so machines have **stability, grip, and control** under heavy loads, repeated turns, and rough surfaces.

Tough where it counts

KENDA K610 Kinetics

- > Premium pneumatic FLT tire
- > Reinforced sidewalls to withstand impacts
- > Central contact zone for stable steering
- > Extra carcass belt for strength under loads

8"-24"

Confident handling under pressure

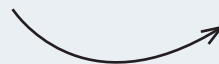

KENDA K611

- > Pneumatic FLT tire
- > Reinforced carcass resists punctures
- > Long-lasting rubber compound
- > Wide grooves deliver strong grip

8"-15"

Utility & Groundcare

KENDA Utility & Groundcare tires deliver dependable day-to-day performance for turf, golf, ATV/UTV, horticulture, and municipal applications.

Our range combines durable constructions, stable handling, and surface-conscious tread designs to support traction, control, and low ground impact across parks, paths, sports turf, and utility terrain.

Top choice for many OEMs

KENDA K500 Super Turf

- > Turf tire for professional mowing equipment
- > Siped tread lugs protect sensitive surfaces
- > Deep tread improves puncture resistance
- > Self-cleaning pattern maintains consistent grip

4"-16,5"

A proven performer with extra tread depth

KENDA K505 Turf

- > Turf tire for commercial mowing
- > Siped tread blocks improve turf grip
- > Deep tread design extends wear life
- > Stable handling on slopes and turns

6"-15"

and specifications**

Traction on wet grass, slopes and side hills

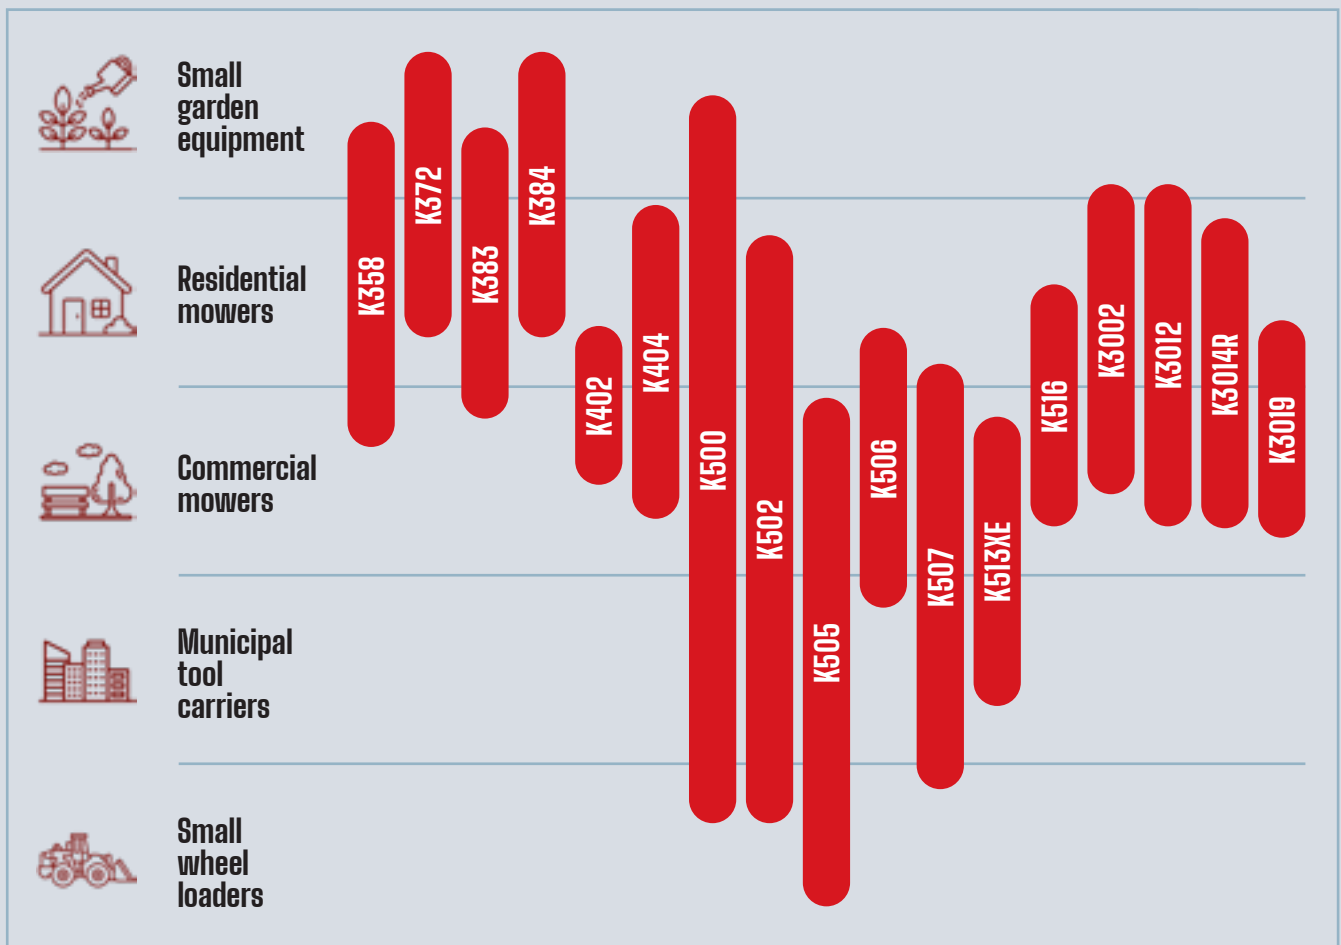

KENDA K502 Terra Trac

- > Turf tire for demanding terrain
- > Aggressive tread for grip on wet grass
- > Stable handling on slopes
- > Open shoulder for control on damp turf

8"-12"

KENDA Turf range guide

Effortless control from tee to green

KENDA K389 Hole-N-1

- > Turf-friendly sawtooth tread for gentle grip
- > Traction on both dry and damp surfaces
- > Durable compound for long service life
- > Stable ride with low rolling resistance

8"-12"

Smooth performance at every turn

KENDA K3005R Kruizer

- > Premium radial tire for golf carts and more
- > Smooth ride on both turf and pavement
- > Siped tread for improved wet grip
- > Approved for road use up to 80 km/h

10"-14"

Sporty style meets comfortable cruising

KENDA KR20A Kruizer

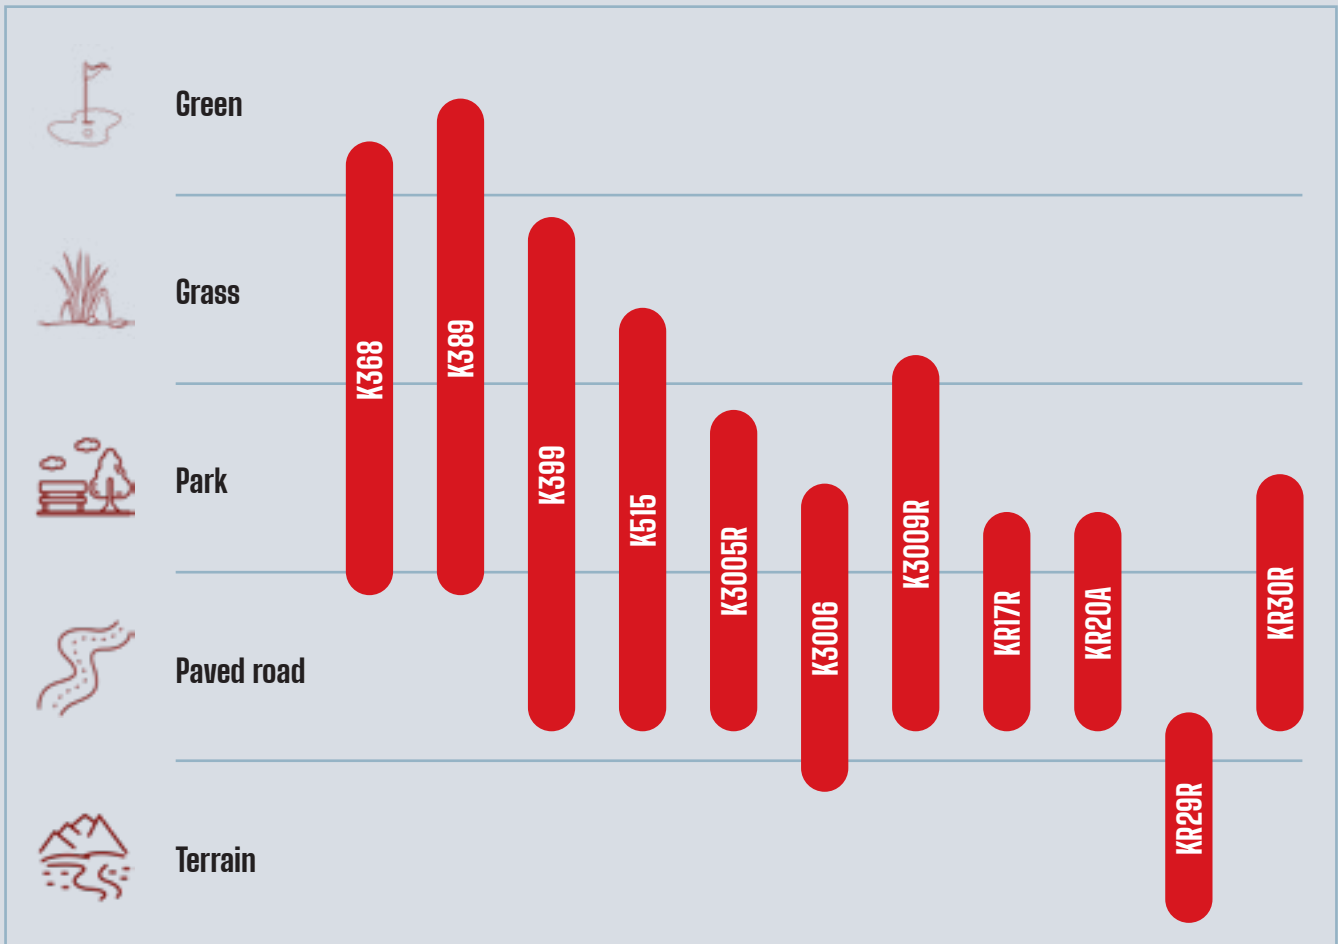

- > UHP-inspired directional tread
- > Wide shoulder blocks for cornering stability
- > Deep grooves enhance water dispersion
- > Steel-belted radial construction for comfort

12"-14"

KENDA Golf range guide

Winter grip with siped precision

KENDA K478

- > Tire for tractors, tillers, and snow blowers
- > Siped tread for grip on snow and mud
- > Bias construction handles repeated heavy use
- > Directional tread reduces wheel spin

4"-8"

Directional control in loose terrain

KENDA K467 Polar Trac

- > Tire for snow blowers and garden tillers
- > Aggressive tread improves grip in snow and soil
- > Open grooves reduce mud and snow build-up
- > Centre lugs improve control and stability

6"-12"

Serious pulling power for lawn equipment

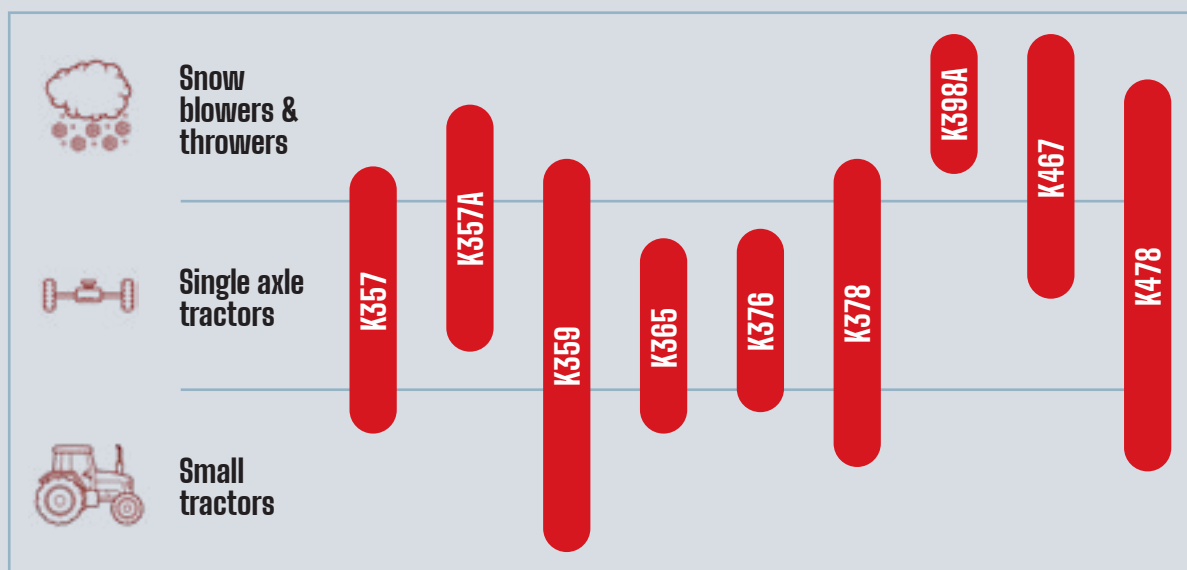

KENDA K365

- > Tire for tractors, tillers, and snow blowers
- > Deep bar tread improves traction
- > Strong grip in mud, soil, and snow
- > Self-cleaning tread reduces build-up

10"-12"

KENDA Horticulture range guide

Reliable control for demanding municipal work

KENDA KR33 Komendo

- > Commercial van tire for service vehicles
- > Durable tread compound for long service life
- > Reliable control in stop-start daily operation
- > Also available in a winter tire version

Dig deeper with the XL

KENDA K299A Bear Claw XL

- > ATV tire for aggressive off-road riding
- > Deep tread for traction in mud and rocks
- > Wide footprint supports stability
- > Reinforced casing resists punctures

11"-12"

Power across every path

KENDA K3213 Cross Trail

- > All-terrain UTV tire developed with Polaris®
- > 3SMA tread design improves traction
- > Variable siping enhances grip and braking
- > 8-ply carcass resists punctures and impacts

14"-15"

Dominate the rocks

KENDA K3204R Klever X/T

- > All-terrain ATV/UTV tire
- > Aggressive tread delivers off-road grip
- > Steel-belted radial construction for stability
- > Reinforced casing resists cuts and punctures

14"-15"

Ready for the rough

KENDA K3201 Mastodon H/T

- > The ultimate trail and hard terrain UTV/SXS tire
- > Built for desert conditions and rocky terrain
- > 8 ply casing for puncture resistance
- > Smooth ride from light truck tire influenced tread

12"-15"

Stay on top

KENDA K537 Bounty Hunter ST

- > ATV/UTV tire for soft terrain use
- > Directional tread improves traction in mud
- > Radial casing supports comfort and stability
- > 8-ply construction resists punctures

Light Transportation

Our Light Transportation solutions include **puncture proof and pneumatic** wheel solutions for applications such as wheelbarrows, sack trucks, walkers, and light mobility devices.

Our puncture proof solutions are produced at a specialised factory in the UK and combine **safety, durability, and comfort** – for a better way to roll.

Lightweight handling without flats

KENDA Flex Lite

- > Puncture-proof tire for lighter use
- > Broad footprint protects grass
- > Adaptive Flex system improves rolling
- > Rust-free wheel design keeps out dirt

26-8.5E - 39-12E

Puncture-proof strength for professionals

KENDA Flex Pro

- > Puncture-proof tire for heavier use
- > High load capacity
- > Classic wheel design with flexible fitment
- > Rust-resistant steel wheel assembly

34-8A - 39-8A

Everyday transport without punctures

KENDA Flex iCore 2 Lite

- > Puncture-proof tire for light utility use
- > Flexible core improves shock absorption
- > Dual footprint supports hard and soft ground
- > Made with minimum 50% recycled materials

34-10E - 39-10E

Professional comfort, no interruptions

KENDA Flex iCore 2 Pro

- > Puncture-proof tire for professional use
- > Flexible rib core absorbs shocks under load
- > Stable handling on most surfaces
- > Made with minimum 50% recycled materials

39-10E

Trailer

KENDA trailer tires are engineered for stable, dependable transport across everything from light-duty trailers to heavy professional applications, winter conditions, and off-road use.

Tested and optimised for real European operating conditions, the range combines stability, low noise, and strong air retention to support safe, consistent performance on the road.

Reliable performance for lighter hauls

KENDA KR209 KargoTrail 3G

- > For light-duty private and professional use
- > Good wet traction and stability
- > Reinforced liner for airtight performance
- > Durable design for everyday trailer use

10"-15"

Strength for heavy loads

KENDA KR101 MasterTrail 3G

- > For higher loads and professional use
- > Balanced tread delivers low-noise towing
- > Reinforced liner for good air retention
- > Good wet traction and stability

10"-16"

Confidence on icy roads

KENDA KR500 Winter Trailer

- > For lighter to moderate loads
- > 3PMSF-certified and studdable winter tread
- > Stable handling in wet and wintry conditions
- > Rain and slush clearing tread pattern

10"-15"

Take on any terrain

KENDA KR103 MasterTrail XC

- > Trailer tire for demanding mixed-use transport
- > Reinforced construction supports heavy loads
- > High sipe density improves grip
- > Balanced tread for stable, low-noise towing

Wheels

KENDA engineers and manufactures both **steel and alloy wheels** at our own facilities in Europe and Asia.

The wheels are made to **withstand the speeds, impacts and weather conditions of daily use.**

Durable wheels for any challenge

KENDA manufactures steel and alloy wheels for both OEM and selected aftermarket applications.

The wheels are engineered in-house to ETRTO standards and produced at our facilities in Croatia and China. Our facility in Croatia is ISO 9001 and 14001 certified and our facility in China is ISO 9001 certified.

Our wheel range supports everything from high-speed trailer to industrial, utility, and off-road machinery.
